The Centre for Training Materials

The **Centre for Training Materials** assists public and private training organisations to source:

- accredited courses
- training packages
- teaching, learning and assessment resources supporting national training package and
- accredited course qualifications.

The **Centre for Training Materials** distributes accredited courses and training support resources owned by the Queensland Department of Education, Training and the Arts, as well as resources from many other public and private developers.

The **Centre for Training Materials** is always seeking new product partners to expand the range of resources available.

The Centre for Training Materials' Services

- Online catalogue of accredited courses and resource materials for licensing.
- Advice and assistance service - call our client service officers for help in locating resources nationwide from multiple suppliers.

Free On-Line Services

- **Queensland Mapping Guides** - transition arrangements for old-to-new qualifications and associated nominal hours relating to training packages.
- **Accredited Course Updates** - guides to revisions, amendments and extensions to courses owned by TAFE Queensland and the Department of Education, Training and the Arts.

Queensland Training Resource Centre

The **Centre for Training Materials** is also TVET Australia Product Services' Training Resource Centre in Queensland. It houses national training packages and a range of support services for preview. Centre staff can also assist with placing orders directly with TVET.

TVET Australia Product Services provides the training system with access to a national catalogue of quality teaching, learning and assessment resources and is the home of nationally endorsed training packages that serve the VET sector.

It is a centralised location for both Commonwealth and State owned training materials, as well as from private publishers.

Your Queensland access point to locating training resources
